CONCESSIONS
Tents and accessories for concession and vending tents. 24

CUSTOM PRINTING
An impactful way to advertise your company’s brand and be seen. 26

GUIDELINES & INFORMATION
Guidelines for seating and event setup. Best practices for tent installation safety. 28
ETI’s TRIO® frame system, with its choice of three cover styles, is ideal for just about any type of event.

The TRIO’s 6005 T-6 anodized marine aluminum frame is not only engineered for strength, it’s a snap to install. TRIO® frames employ a failsafe, steel snap button assembly and the legs telescope down to five feet for easy installation of the tent cover and other accessories. The tubing has color-coded end caps for instant length identification and all the fittings are made of durable cast aluminum.

TRIO® frame tents provide the flexibility of setting up on grass or hard surfaces. They can be used as a single tent for small backyard parties or used in groups for larger events such as fairs and festivals.

The TRIO® is also an excellent choice for custom printing promoting corporate and promotional branding.
THREE VERSATILE COVER STYLES

TRADITIONAL The most frequently used in the tent industry. This popular cover design attaches to the frame with straps and buckles on the inside perimeter of the tent. In addition, the valance on the Traditional style cover has scalloped edges. Expandable mids, that can extend a tent up to 100+ feet, are available for Traditional style covers.

TENSION The sleek look of the Tension cover attaches to the frame with straps and steel “S” hooks that extend down the legs to the base plate tightening the cover for a smooth finish. Available in 30’ and 40’ lengths with the 20’ width. (The Tension cover style cannot be used with expandable mids.)

HIGH-PEAK Our High-Peak cover is designed with a high slope, stylish peak and smooth curves to stand out from the rest. The High-Peak cover attaches the same way as the Tension cover style. A center mast pole is simply added to the crown fitting to create the peak. Available in 30’ and 40’ lengths with the 20’ width. (The High-Peak cover style cannot be used with expandable mids.)
TRIO® FRAME TENTS | 10’ 15’ 20’

The TRIO® is our cornerstone product of versatile tent frames and covers – offered in three stylish cover designs. The white 18 oz. lacquer coated, black-out vinyl makes the covers easier to handle, install, clean and store. They are also available in a number of solid colors and 30-inch stripes. (See page 23 for color choices.)

KENTUCKY TENT MODEL APPROVED.

ENGINEERED FRAME SYSTEM

• Engineered and wind load tested up to 75 mph.*
• 6005 T-6 anodized marine aluminum, 1 ¾” outside diameter with exclusive alignment line; 1/8” wall thickness.
• Color-coded end caps for easy identification of tubing lengths. End caps keep your tubing clean by keeping dirt out.
• Patented cast aluminum fittings and detachable cast aluminum base plates.
• Failsafe steel snap button assembly.
• Leg height is adjustable from 6’6”, 7’, 7’6” and 8’.
• Legs telescope down to 5’ for easy installation of tent cover and other accessories.
• Cover pitches for the TRIO® are: 10’ wide – 2’6”; 15’ wide – 3’9”; 20’ wide – 5’. Add center mast height for cover pitches of High-Peak style.
• Additional cross-brace systems, required for engineering, are available for any size TRIO® frame.
• Stakes, ropes and ratchets are sold separately.

* Cross-bracing required on frames larger than 20’ x 20’ to meet wind load requirements.

STANDARD COVERS

• Standard covers are manufactured of an exclusive high quality 1300 denier, 18 oz. lacquer coated black-out vinyl material which makes the cover easier to handle, store, install and clean.
• Also available in Clear Burlan 18 oz. SkyLite™ vinyl with embedded filament lines that help prevent cover expansion. (See page 15 for additional Clear Cover information.)
• Available in 18 oz. solid colors and 30” stripes. (See page 23 for color choices.)
• UV treated, flame retardant that meets the California Fire Marshal Title 19 and NFPA 701, water repellent, mildew resistant.
• “West Coast” style covers can be manufactured upon request.
• Expandable mids for the Traditional style are available in 10’, 15’ and 20’ mids.
• Seams are 100% electronically welded.
• Stainless steel buckles prevent unsightly rust stains on your cover.
• Double reinforced straps and buckles.
• Vinyl grommets installed by R.F. welding on expandable covers.
• Cover storage bag included.
ETI’s CLASSIC™ engineered tents are ideal for events that require a large, unobstructed covered area.

ETI’s engineered CLASSIC™ frame tents are the ideal frame system for events with large numbers of people and events open to the general public. The CLASSIC™ is the ideal tent structure for weddings, corporate events, or any event that requires a large, unobstructed covered area.

The CLASSIC™ is a tent system with flexibility that can grow. The consistency of our engineered frame system allows for the utilization of individual parts over several sizes of tents, offering more flexibility with your inventory. Then with the addition of cover expandable mids, the CLASSIC™ tent can be extended up to 100+ feet in length.

In addition to the Traditional cover style that all our CLASSIC™ tents come in, we also offer a larger 30’ x 30’ High-Peak cover style (shown below).
Versatility of an expandable cover

All CLASSIC™ and TRIO® Traditional tent covers are available in either a single piece or expandable design. Expandable covers have the versatility to extend the standard square tent to lengths up to 100+ feet by adding 10-ft. or 20-ft. wide expandable mids between the cover end pieces.
CLASSIC™ FRAME TENTS | 30’ 40’

The CLASSIC™ frame and cover has the capability to extend its length to 100+ feet. This frame system is a free standing aluminum frame structure that has no center poles. The use of expandable mids makes the CLASSIC™ a very versatile tent style.

KENTUCKY TENT MODEL APPROVED.

ENGINEERED FRAME SYSTEM

• Engineered and wind load tested up to 75mph.* Snow load rated.
• Tubing is manufactured of 6005 T-6 anodized marine aluminum with exclusive alignment line; 1/8” wall thickness.
• 30’ wide tents include double-tube corner rafters, 2” mid-rafter and 2” side bars.
• 40’ wide tents include double-tube corner rafters, double-tube mid-rafters and 2” side bars.
• Galvanized steel Flo-coat™ fittings.
• Failsafe steel snap button assembly.
• Adjustable leg height 7’3”, 8’3”, 9’3”.
• 1/4” plastic coated steel cable(s) with 3” snap hooks are included on frames 60’ and longer.
• Cover pitches for the CLASSIC™ are: 30’ wide – 8’; 40’ wide – 10’6”. Add center mast height for cover pitch of the 30’ High-Peak style.
• Stake and rope anchoring included.
• Cross-brace systems are available for any size CLASSIC™ frame.

• Cross-bracing required on frames larger than 30’ x 30’ to meet wind load requirements.

STANDARD COVERS

• Standard covers are manufactured of an exclusive high quality 18 oz. lacquer coated black-out vinyl material which makes the cover easier to handle, store, install and clean.
• Available in 18 oz. solid colors and 30” stripes. (See page 23 for color choices)
• Also available in Clear Burlan 18 oz. SkyLite™ vinyl with embedded filament lines that help prevent cover expansion. (See page 15 for additional Clear Cover information.)
• “West Coast” style covers can be manufactured upon request.
• Seams are 100% electronically welded.
• Expandable mids are available in 10’ and 20’ mids for 30’ and 40’ wide covers.
• Stainless steel buckles prevent unsightly rust stains on your cover.
• Double reinforced straps and buckles.
• Vinyl grommets installed by R.F. welding on expandable covers.
• Cover storage bag included.
ETI’s XP Series was created with strength and a sleek design. Its elegant curves and impressive peaks are similar to our other high peaked tents, which were designed for stability through repeated installations and enduring use. Our white vinyl-coated cross-cable supports a “flying” center pole that eliminates standing center poles creating an open and unobstructed interior space. Our double valance and top tensioning ratchet system keeps the cover uniformly tensioned and free of wrinkles without added complexity.

**XP SERIES BENEFITS**

- Fewer parts than traditional frame tents for quicker installations.
- “Double valance” for ease of sidewall and gutter installation.
- Illusion of a much larger tent.
- No tools needed for assembly.
- Interchangeable parts between sizes.

**XP SERIES FEATURES**

- No more than four uprights in any of our three available sizes.
- A slightly higher than average industry standard pitch with a double valance for ease of hanging walls and gutters.
- 18 oz. white laminated blockout vinyl covers (also available in many colors and digitally printed options).
- Center mast has up to a 7-inch adjustability and a brass wheel in the base for ease of erecting.
- Galvanized steel welded fittings.
- An upright base with up to a 6-inch adjustability and a 1⅛” hole for an additional anchoring option to be used in conjunction with standard anchoring and guying requirements.
- 1/4” white vinyl-coated cables.
- Top tensioning system using 1” ratchets with vinyl covers.

Available in 10’, 15’ and 20’ sizes.
(The XP Series is not able to be expanded with mids.)
MARQUEE | 6’ 9’ 10’

The Marquee frame tent is ideal for entryways, extensions to or between buildings and tents, or to cover a walkway. The Marquee is a gable-end frame and is available in 10-ft., 9-ft. and 6-ft. widths. Marquee frame parts are compatible with the TRIO® frame system. There are 10-ft. expandable mids available that can expand the Marquee up to several hundred feet in length. Velcro® end-gable panels and 10-ft. mids detach easily for quick expandability.

Configurable in 10-ft., 9-ft. and 6-ft. widths. The length can be extended with 10-ft. wide expandable mids.
When you don’t want to exclude the beauty of an event site, clear vinyl covers are the perfect solution to bring it all in. Our clear tent covers are designed to let nature’s backdrop be part of the event while still providing overhead protection. Evening and night events are especially magical when adding lighting to complement the night sky.

All our clear covers are custom made to fit both the TRIO® and CLASSIC™ frame systems and are manufactured with beautiful, durable Burlan Skylite™ 18-mil clear vinyl with embedded filament lines that help prevent cover expansion and contraction in different weather conditions.

Clear Burlan Skylite™ covers provide shelter while still letting nature be part of the event – day or night.
CLASSIC SIDEWALLS

Our Classic Sidewalls transform any tent cover to a self-contained structure. All covers manufactured by ETI include a wall rope inside the perimeter of the tent for hanging sidewalls. Our sidewalls are designed to attach to the wall rope and be removed easily with quick release vinyl fasteners that are sewn every 24 inches along the top of the sidewall. Manufactured from 13 oz. flame retardant top quality vinyl, our sidewalls are available in a number of styles – solid, clear, mesh, screened and cathedral window.

- Available as Standard and Lap-N-Flap.
- Optional choice of 18 oz. blackout white vinyl.
- Optional choice of 18 oz. black-out solid colors or 30" stripes. (See page 23 for color choices)
- Sidewall vinyl fasteners are sewn every 24 inches across the top.
- Grommets evenly spaced every 5 feet along bottom of sidewall.
- Digital printing available. (See page 27 for Custom Printing information)
- Door panel available with a solid white 3’ x 6’6” zipper door.

SLIDEWALL TRAC SYSTEM®

Developed by ETI, the unique Slidewall Trac System® improves the performance of managing sidewalls by allowing the sidewall to be opened or closed in seconds by simply sliding it to either side.

The Slidewall Trac System®, which comes in 10-ft. and 15-ft. lengths, can be attached to most any tent system in minutes by hanging the track from the tent frame side bars inside the tent cover. The Slidewall Trac System® incorporates rolling track hangers that glide inside the track. The standard sidewall snap hooks simply clip to the track hangers. That’s it – the sidewall is now able to slide from side to side. When open, the sidewall can easily be held in place to a tent leg with an adjustable webbed tie-back.

- Available in 10-ft. and 15-ft. lengths.
- For use with standard sidewalls; no special sidewalls required.
- Fits onto any standard 1 ¼” OD tent frame side bar.
- Lightweight, sturdy aluminum construction.
- Roller track hangers are made of hard durable plastic.
Elegant™ Tent Liners and flowing Leg Drapes will add a finishing touch of sophistication and elegance to any event. Tent liners and drapes are used as a stylish way to hide unsightly framework or just soften the atmosphere with soft pillowed fabric. Our expandable tent liners are manufactured with the highest quality flame retardant, true white polyester material and fabricated to fit and hang perfectly even after years of use. No tent accessory gives such an elegant polished result.

- Flame retardant, white polyester.
- Liners and drapes meet the California Fire Marshall Title 19 and NFPA 701 standards.
- Designed for easy installation. Attach to the curtain rope on the inside tent perimeter. Lift into place with rope and pulley system.
- Expandable with 10-ft. Velcro® mids.
- Machine washable.
- Liners and drapes fit most frame systems.
Economy Tent has all those additional items necessary for erecting, anchoring, bracing, lighting and maintaining your tent inventory.

Full descriptions and more information on tent accessories are on our website – economytent.com.

ANCHORING
- Double-headed Steel-forged Stake
- Stake Puller
- Diamond-braided Nylon Rope (Guy Rope)
- Webbed Ratchet Strap (Web Guy)
- Sandbag Cover
- 55-Gal. Barrel Cover (digital printing option available)

BRACING
- Steel Cable Bracing
- Cross-Brace Tubing and Fittings

In addition to the Traditional white tent cover color, TRIO® and CLASSIC™ covers are also available in 11 solid colors, including Black, constructed with 18 oz. gloss black-out vinyl. There are also color variations of a 30-inch wide stripe available.
TRIO® Concession tents are attractive, easy to install, functional and ultimately profitable. They are ideal for all types of outdoor tent functions including concession tents, school fairs, state fairs, food services and game booths. We offer the concession style tent in a variety of styles, sizes and colors along with add-on accessories that include tent skirting, sidewalls, a 10-ft. serving counter, a sign package, awnings and much more.

See page 5 for TRIO® Frame and Cover information.
See page 27 for Custom Printing information.

TRADITIONAL CONCESSION PACKAGE
Complete Concession Tent package available in solid color or 30” stripes.
Includes:
• 10’ x 10’ Traditional TRIO® frame & cover
• Three 10’4” x 3’ bally skirts
• 10’4” x 7’ back sidewall
• 10’ concession countertop
• 30” steel stakes & ratchets for anchoring

HIGH-PEAK CONCESSION PACKAGE
Complete Concession Tent package available in solid color or 30” stripes.
Includes:
• 10’ x 10’ High-Peak TRIO® frame & cover
• Three 10’4” x 3’ bally skirts
• 10’4” x 7’ back sidewall
• 10’ concession countertop
• 30” steel stakes & ratchets for anchoring
ETI is proud to offer a 10’ x 10’, custom-printed Vending Booth Package. Included is everything you need to set up an eye-catching concession booth for festivals, fairs and special events.

The booth is a 10’ x 10’ TRIO® frame with a 15 oz. High-Peak cover with attached pole covers. Also included is a 10’ x 6’7” vinyl backwall, three 10’ x 3’ vinyl bally skirts, 30” steel stakes and web guys.

Custom printing is included in the package price. However, artwork design is NOT included. Customer must provide suitable artwork files according to our artwork specifications. ETI will be happy to assist you with any questions or layout options for your booth but we do NOT design or re-design artwork.

Visit our website, economytent.com, to download the ARTWORK SPECS for artwork submission.

See page 5 for TRIO® Frame and Cover information.
A printed tent cover is a powerful communication tool. It's a great way to advertise your company's products or services, and will most certainly attract potential customers.

Digital printing is a non-impact printing process that is highly durable and scratch resistant. It is a full color process and the final product has vivid close-view photographic quality.

Visit our website, economytent.com, to download the ARTWORK SPECS for artwork submission.

Custom printing increases tent visibility, ensuring your business will stand out in a crowd.
SEATING GUIDELINES

To help you purchase and recommend the correct size tent(s) for various types of events, refer to this recommended seating capacity guideline as a reference. When figuring square footage requirements, be sure to include additional space needed for all activities taking place under the tent.

**Standing** .............................. 5-6 sq.ft. per person  
**Cathedral Seating** ..................... 5-6 sq.ft. per person  
**Cocktail Party, stand up with 30” Bar Tables** .......................... 6-7 sq.ft. per person  
**Buffet Dinner** ............................ 7-8 sq.ft. per person  
**Dinner, 8’ banquet tables** .............. 8 sq.ft. per person  
**Dinner, 5'/6’ round tables** .......... 8-10 sq.ft. per person  
**Dinner, 7'/8’ round tables** ............ 12 sq.ft. per person  
20’ x 40’ tent = 8 tables (64-80 guests)  
30’ x 60’ tent = 18 tables (150-180 guests)  
40’ x 60’ tent = 24 tables (200-240 guests)  
**Dance Floor** (Formula: One 3’ x 3’ section per 4 people.  
*ie: 100 people = 15’ x 15’ area*)  
**Dinner or Dance** ......................... 4 sq.ft. per person  
**Wedding** ................................. 2-3 sq.ft. per person  
**Speakers Platform** ..................... 10 sq.ft.  
**Bandstand** ............................... 20-30 sq.ft.  
**Piano, Spinet** ............................ 30 sq.ft.  
**Piano, Grand** ............................. 100 sq.ft.  
**Bar** ........................................ 30 sq.ft.  
**Caterer Tent** ............................ 10’ x 10’ (100 sq.ft.)

SAFETY GUIDELINES

Economy Tent International products are of superior design and function best in the parameters of these instructions. It is IMPERATIVE that the instructions are carefully read and COMPLETELY FOLLOWED. Please read these instructions before the installation or removal of the product.

CAUTION:

- The installer is solely responsible for the evaluation of the site and determining the proper securing method. Some soils require different staking or securing other than what is provided with the tent or purchased by the customer. Our responsibility is limited to the construction of the tent and not damage due to installation. Damaged frame parts or fittings are usually caused by improper lifting of the frame and are not covered under the terms of the warranty.

- Installation during threatening weather conditions is not advised under any circumstances. It is the responsibility of the tent installer/maintainer to determine the severity of the weather and utmost care must be used. This product is to be used as a temporary structure. In any questionable weather conditions, evacuation is recommended and all valuable merchandise should be removed immediately. Use good judgment, common sense and safety during take-down of the tent.

- Due to shifting of the tent frame, loosening of the stakes or loosening buckles, it is possible for the cover to “pocket” water in rain conditions. It is imperative to continually inspect the frame and cover for proper fit and alignment and adjust as required.

- Proper safety equipment should be used at all times to insure a safe installation and take down. Careful evaluation should be made to determine if hard hats, steel toe shoes, safety glasses and any other equipment should be used for the safe and proper installation. Tent lifts or other equipment might be considered for lifting or take down.

- Economy Tent stands behind its products in accordance of the Terms and Conditions of Sale (see the most updated version at economytent.com). For further questions or inquiries, please call toll free at 800-438-3226 or email us at sales@economytent.com.

For additional reference consult “The IFAI Procedural Handbook for the Safe Installation and Maintenance of Tentage” and the IFAI “Ballasting Study”. Both of these resources are available from the IFAI Tent Rental Division at www.tentexperts.org under the “Safety” menu.
