# TRIO

ETI's TRIO® frame system, with its choice of three cover styles, is one of the most versatile tent designs out there — ideal for just about any type of event or gathering.

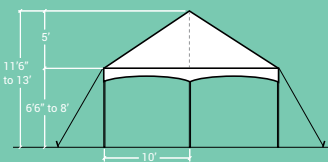

## 3 VERSATILE COVER STYLES

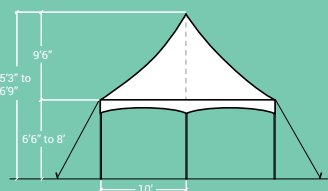

**TRADITIONAL** The most frequently used in the tent industry. This popular cover design attaches to the frame with straps and buckles on the inside perimeter of the tent. In addition, the valance on the Traditional style cover has scalloped edges. Expandable mids, that can extend a tent up to 100+ feet, are available for Traditional style covers.

**TENSION** The sleek look of the Tension cover attaches to the frame with straps and steel "S" hooks that extend down the legs to the base plate tightening the cover for a smooth finish. Available in 30' and 40' lengths with the 20' width. (The Tension cover style cannot be used with expandable mids.)

**HIGH-PEAK** Our High-Peak cover is designed with a high slope, stylish peak and smooth curves to stand out from the rest. The High-Peak cover attaches the same way as the Tension cover style. A center mast pole is simply added to the crown fitting to create the peak. Available in 30' and 40' lengths with the 20' width. (The High-Peak cover style cannot be used with expandable mids.)

## TRIO Frame TENTS | 10' 15' 20'

The TRIO's 6005 T-6 anodized marine aluminum frame is not only engineered for strength, it's a snap to install. TRIO® frames employ a failsafe, steel snap button assembly and the legs telescope down to five feet for easy installation of the tent cover and other accessories. The tubing has color-coded end caps for instant length identification.

TRIO® frame tents provide the flexibility of setting up on grass or hard surfaces. They can be used as a single tent for small backyard parties or used in groups for larger events such as fairs and festivals.

### ENGINEERED FRAME SYSTEM

- Engineered and wind load tested.\*
- 6005 T-6 anodized marine aluminum, 1 1/4" schedule ten pipe, 1/8" wall thickness with exclusive alignment line.
- Color-coded end caps for easy identification of tubing lengths. End caps keep your tubing clean by keeping dirt out.
- Patented cast aluminum fittings and detachable cast aluminum base plates.
- Failsafe steel snap button assembly.
- Leg height is adjustable from 6'6", 7', 7'6" and 8'.
- Legs telescope down to 5' for easy installation of tent cover and other accessories.
- Cover pitches for the TRIO® are: 10' wide – 2'6"; 15' wide – 3'9"; 20' wide – 5'. Add center mast height for cover pitches of High-Peak style.
- Stakes and ratchets are sold separately.

**\* Cross-bracing required on frames larger than 20' x 20' to meet wind load requirements.**

### STANDARD COVERS

- Standard covers are manufactured of an exclusive high quality 1300 denier, 18 oz. lacquer coated black-out vinyl material which makes the cover easier to handle, store, install and clean.
- Also available in Clear Burlap 18 oz. SkyLite™ vinyl with embedded filament lines that help prevent cover expansion. (See page 12 for additional Clear Cover information.)
- Available in 18 oz. solid colors and 30" stripes. (See page 15 for color choices.)
- UV treated, flame retardant that meets the California Fire Marshal Title 19 and NFPA 701, water repellent, mildew resistant.
- "West Coast" style covers can be manufactured upon request.
- Expandable mids for the Traditional style are available in 10', 15' and 20' mids.
- Seams are 100% electronically welded.
- Stainless steel buckles prevent unsightly rust stains on your cover.
- Double reinforced straps and buckles.
- Vinyl grommets installed by R.F. welding on expandable covers.
- Cover storage bag included.

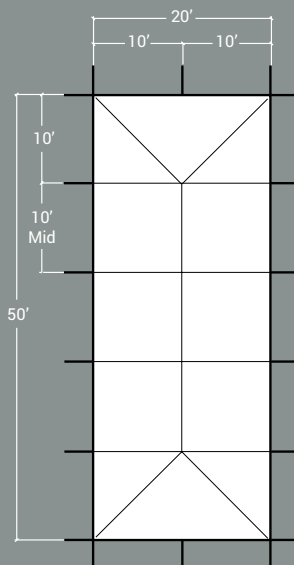

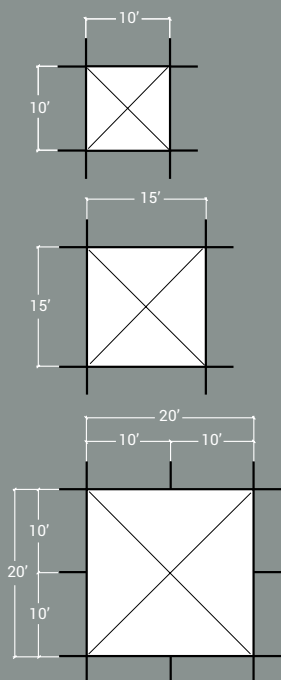

## 3 popular sizes to choose from

Adding to the TRIO versatility, all three cover styles are available in 10-ft., 15-ft. and 20-ft. widths.

## Easily expand with mid sections

The Traditional style cover is expandable to whatever length you need – up to 100 feet – with the addition of 10-ft. or 20-ft. wide mid sections.

# CLASSIC PLUS

ETI's CLASSIC™ PLUS engineered tents are ideal for events that require a large, unobstructed covered area.

# CLASSIC™ PLUS Frame Tents | 30' 40'

ETI's engineered CLASSIC™ PLUS frame tents are the ideal frame system for events with large numbers of people such as weddings, corporate or municipal gatherings,

The CLASSIC PLUS is a tent system that offers flexibility with your inventory. With the addition of expandable mids, both the 30' and 40' width CLASSIC PLUS tents can be extended up to 100+ feet in length.

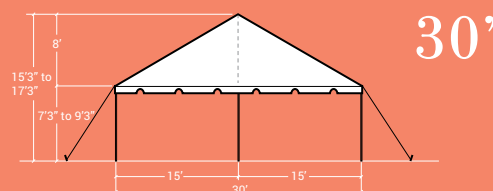

## ENGINEERED FRAME SYSTEM

- Engineered and wind load tested.\*
- Tubing is manufactured of 6005 T-6 anodized marine aluminum with exclusive alignment line; 1/8" wall thickness.
- 30' wide tents include double-tube corner rafters, 2" mid-rafter and 2" side bars.
- 40' wide tents include double-tube corner rafters, double-tube mid-rafters and 2" side bars.
- Galvanized steel Flo-coat™ fittings.
- Failsafe steel snap button assembly.
- Adjustable leg height 7', 7'3", 8', 8'3", 9', 9'3".
- Cover pitches for the CLASSIC PLUS are: 30' wide – 7'6"; 40' wide – 10'. Add center mast height for cover pitch of the 30' High-Peak style.
- Stake and Ratchet Strap included.
- Cross-brace system included on 30' x 50' and longer, 40' x 60' and longer. Optional to add additional 2 cross-brace systems on 6-way crowns for additional support.
- 1/4" plastic coated steel cable(s) with 3" snap hooks are available for CLASSIC PLUS.

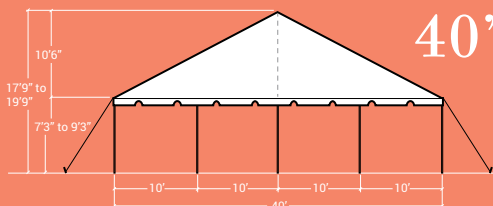

\* **Cross-bracing required on frames larger than 30' x 30' to meet wind load requirements.**

## STANDARD COVERS

- Standard covers are manufactured of an exclusive high quality 18 oz. lacquer coated black-out vinyl material which makes the cover easier to handle, store, install and clean.
- Available in 18 oz. solid colors and 30" stripes.  
(See page 15 for color choices)
- Also available in Clear Burlan 18 oz. SkyLite™ vinyl with embedded filament lines that help prevent cover expansion.  
(See page 12 for additional Clear Cover information.)
- Seams are 100% electronically welded.
- Expandable mids are available in 10' and 20' mids for 30' and 40' wide covers.
- Stainless steel buckles prevent unsightly rust stains on your cover.
- Double reinforced straps and buckles.
- Vinyl grommets installed by R.F. welding on expandable covers.
- Cover storage bag included.

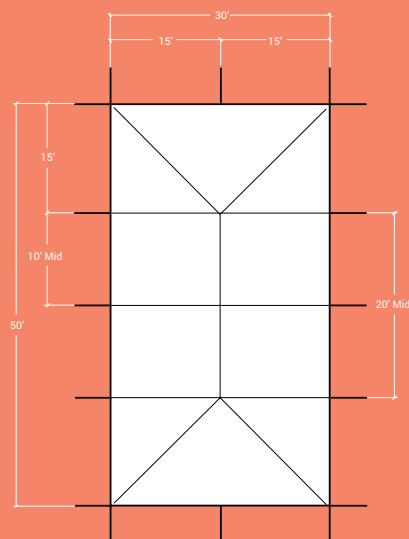

30'

40'

## EXPAND CLASSIC PLUS COVERS WITH MID EXTENSIONS

### Versatility of an expandable cover

All CLASSIC PLUS tent covers are available in either a single piece or expandable design. Expandable covers have the versatility to extend the standard square tent configuration to lengths up to 100+ feet by adding 15-ft. or 20-ft. wide expandable mids between the cover end pieces.

### How do cover mid extensions connect?

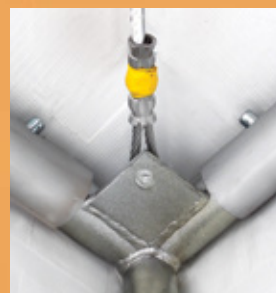

To extend the length of any of the CLASSIC PLUS and TRIO covers, there are 10', 15' and 20' cover mid extensions that lace to the main tent cover. The diagram above shows how the loops from the mid extension fit through grommets on the main tent cover and loop-lace together. A vinyl flap then covers and seals the lacing for a clean, seamless look.

# XP series

10' 15' 20'

ETI's XP SERIES Cross Cable System was created with strength and a sleek design in mind. Its elegant curves and impressive peaks are similar to our other high peaked tents, which were designed for stability through repeated installations and enduring use. Our white vinyl-coated cross-cable supports a "flying" center pole that eliminates standing center poles creating an open and unobstructed interior space. Our double valance and top tensioning ratchet system keeps the cover uniformly tensioned and free of wrinkles without added complexity.

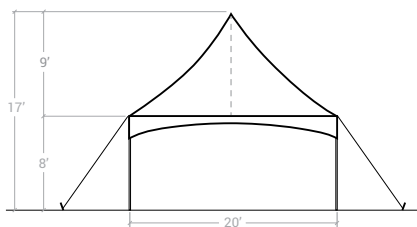

## XP SERIES BENEFITS

- Fewer parts than traditional frame tents for quicker installations.
- “Double valance” for ease of sidewall and gutter installation.
- Illusion of a much larger tent.
- No tools needed for assembly.
- Interchangeable parts between sizes.

Available in 10', 15' and 20' sizes.

(The XP Series is not able to be expanded with mids.)

## XP SERIES FEATURES

- No more than four uprights in any of our three available sizes.
- A slightly higher than average industry standard pitch with a double valance for ease of hanging walls and gutters.
- 18 oz. white laminated blackout vinyl covers (also available in many colors and digitally printed options).
- Center mast has up to a 7-inch adjustability and a brass wheel in the base for ease of erecting.
- Galvanized steel welded fittings.
- An upright base with up to a 6-inch adjustability and a 1 1/8" hole for an additional anchoring option to be used in conjunction with standard anchoring and guying requirements.
- 1/4" white vinyl-coated cables.
- Top tensioning system using 1" ratchets with vinyl covers.

# QUICK & EASY POP-UP

10' x 10'

A heavy-duty commercial, pop-up steel frame tent covering a 100 sq. foot area that sets up in minutes. The 10' x 10' cover is manufactured of an exclusive high quality 13oz lacquer coated black-out vinyl material. The cover is UV treated, flame retardant, water repellent and mildew resistant. It also includes rope in the perimeter for sidewalls. The frame and cover comes in a convenient bag on wheels for easy transporting.

## QUICK & EASY POP-UP FEATURES

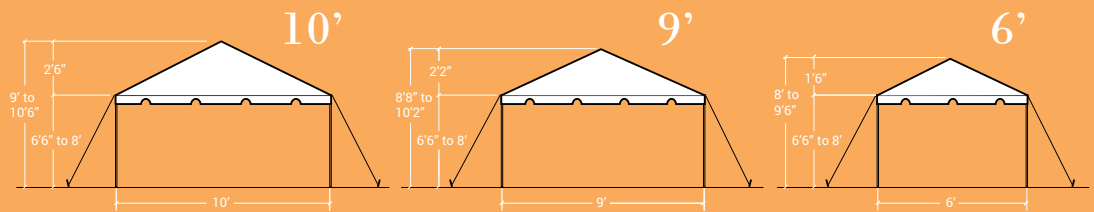

- Heavy-duty commercial strength.
- Hexagonal profile.
- 100 square feet of shaded area.
- Steel frame material.
- Adjustable cover peak system.
- Double reinforced straps and buckles.
- Push button adjustable legs.
- Corners are reinforced with a D-ring to strap down the tent.  
*(Stakes, ropes and ratchets are sold separately)*
- Includes storage bag on wheels.

# clear covers

CLEAR BURLAN SKYLITE™ covers provide shelter while still letting nature be part of the event — day or night.

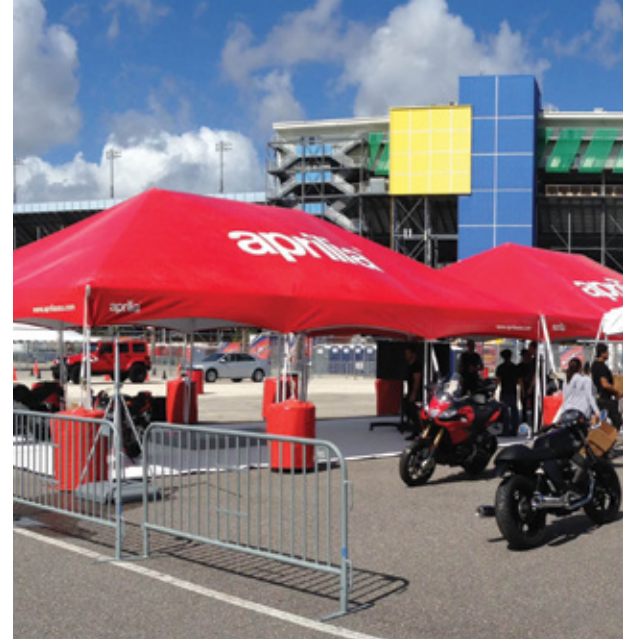

When you don't want to exclude the beauty of an event site, clear vinyl covers are the perfect solution to bring it all in. Our clear tent covers are designed to let nature's backdrop be part of the event while still providing overhead protection. Evening and night events are especially magical when adding lighting to complement the night sky.

All our clear covers are custom made to fit the TRIO® and CLASSIC™ PLUS frame systems and are manufactured with beautiful, durable Burlan Skylite™ 18-mil clear vinyl with embedded filament lines that help prevent cover expansion and contraction in different weather conditions.

# CUSTOM DIGITAL PRINTING

Custom digital printing increases tent visibility, ensuring your business will stand out in a crowd.

A printed tent cover and/or tent sidewalls are powerful communication tools. It's a great way to advertise your company's products or services, and will most certainly attract potential customers.

Digital printing is a non-impact printing process that is highly durable and scratch resistant. It is a full color process and the final product has vivid close-view photographic quality.

**Call ETI for Digital Printing Pricing – 800-438-4226.**

Visit our website, [economytent.com](http://economytent.com), to download the ARTWORK SPECS for artwork submission.

# cover COLORS

In addition to the Traditional white tent cover color, TRIO®, CLASSIC™ PLUS and XP SERIES covers are also available in 11 solid colors, including Black, constructed with 18 oz. gloss black-out vinyl. There are also color variations of a 30-inch wide stripe available.

# SIDewALLS

Our CLASSIC SIDEWALLS transform any tent cover to a self-contained structure. All covers manufactured by ETI include a wall rope inside the perimeter of the tent for hanging sidewalls. Our sidewalls are designed to attach to the wall rope and be removed easily with quick release vinyl fasteners that are sewn every 24 inches along the top of the sidewall. Manufactured from 13 oz. flame retardant top quality vinyl, our sidewalls are available in a number of styles — solid, clear, mesh, screened and cathedral window.

Go to [economytent.com](http://economytent.com) to see all of the sidewall options.

## SIDEWALL FEATURES

- Available as Standard and Lap-N-Flap.
- Optional choice of 18 oz. blackout white vinyl.
- Optional choice of 18 oz. black-out solid colors or 30" stripes.
- Sidewall vinyl fasteners are sewn every 24 inches across the top.
- Grommets evenly spaced every 5 feet along bottom of sidewall.
- Digital printing available.
- Door panel available with a solid white 3' x 6'6" zipper door.

## SIDewALL | PRICE LIST

# SLIDEWALL TRAC SYSTEM®

Developed by ETI, the unique Slidewall Trac System® improves the performance of managing sidewalls by allowing the sidewall to be opened or closed in seconds by simply sliding it to either side.

The Slidewall Trac System®, which comes in 10-ft. and 15-ft. lengths, can be attached to most any tent system in minutes by hanging the track from the tent frame side bars inside the tent cover. The Slidewall Trac System incorporates rolling track hangers that glide inside the track. The standard sidewall snap hooks simply clip to the track hangers. That's it – the sidewall is now able to slide from side to side. When open, the sidewall can easily be held in place to a tent leg with an adjustable webbed tie-back.

## SLIDEWALL TRAC SYSTEM FEATURES

- Available in 10-ft. and 15-ft. lengths.
- For use with standard sidewalls; no special sidewalls required.
- Fits onto any standard 1¾" or 2" OD tent frame sidebar.
- Lightweight, sturdy aluminum construction.
- Roller track hangers are made of hard durable plastic.

## SLIDEWALL | PRICE LIST

Available in 10-ft. and 15-ft. lengths. Use with any type standard sidewall.

- Machine washable.
- Liners and drapes fit most frame systems.

# Liners & Drapes

ELEGANT™ TENT LINERS and DRAPES will add a finishing touch of sophistication and elegance to any event. Tent liners and drapes are used as a stylish way to hide unsightly framework or just soften the atmosphere with soft pillowed fabric. Our expandable tent liners are manufactured with the highest quality flame retardant, true white polyester material and fabricated to fit and hang perfectly even after years of use. No tent accessory gives such an elegant polished result.

# LIGHTING

Add that finishing touch! Light up your clients' events with elegant overhead and outdoor lighting from ETI.

Full descriptions and more information on lighting are on our website – [economytent.com](http://economytent.com).

# concession | PRINTED VENDING BOOTH

TRIO® CONCESSION TENTS and PRINTED VENDING BOOTHS are attractive, easy to install, functional and ultimately profitable. They are ideal for all types of outdoor tent functions including concessions, school fairs, state fairs, food services and game booths.

We offer concession-style tents in a variety of styles, sizes and colors along with add-on accessories that include tent skirting, sidewalls, a 10-ft. serving counter, a sign package, and much more.

See page 4 for TRIO® Frame and Cover information.  
See page 14 for Custom Printing information.

## TRADITIONAL CONCESSION PACKAGE

Complete Concession Tent package available in solid color or 30" stripes. Includes:

- 10' x 10' Traditional TRIO® frame & cover
- Three 10'6" x 3' bally skirts
- 10'6" x 7' back sidewall
- 10' concession countertop
- 30" steel stakes & ratchets for anchoring

## HIGH-PEAK CONCESSION PACKAGE

Complete Concession Tent package available in solid color or 30" stripes. Includes:

- 10' x 10' High-Peak TRIO® frame & cover
- Three 10'6" x 3' bally skirts
- 10'6" x 7' back sidewall
- 10' concession countertop
- 30" steel stakes & ratchets for anchoring

## PRINTED VENDING BOOTH PACKAGE

Our 10' x 10', custom-printed Vending Booth Package. Includes everything you need to set up an eye-catching concession booth.

- 10' x 10' TRIO® frame with a 15 oz. High-Peak cover
- Front pole covers
- 10' x 6'7" vinyl backwall
- Three 10' x 3' vinyl bally skirts
- 30" steel stakes and web guys

Custom digital printing is INCLUDED in the package price. However, artwork design is NOT included. Customer must provide suitable artwork files according to our artwork specifications. ETI will be happy to assist you with any questions or layout options for your booth but we do NOT design or re-design artwork. (Visit our website, [economytent.com](http://economytent.com), to download the ARTWORK SPECS for artwork submission.)

## seating GUIDELINES

To help you purchase and recommend the correct size tent(s) for various types of events, refer to this recommended seating capacity guideline as a reference. When figuring square footage requirements, be sure to include additional space needed for all activities taking place under the tent.

<b>Standing</b> .....	5-6 sq.ft. per person
<b>Cathedral Seating</b> .....	5-6 sq.ft. per person
<b>Cocktail Party, stand up with 30" Bar Tables</b> .....	6-7 sq.ft. per person
<b>Buffet Dinner</b> .....	7-8 sq.ft. per person
<b>Dinner, 8' banquet tables</b> .....	8 sq.ft. per person
<b>Dinner, 5'6" round tables</b> .....	8-10 sq.ft. per person
<b>Dinner, 7'8" round tables</b> .....	12 sq.ft. per person
20' x 40' tent = 8 tables (64-80 guests)	
30' x 60' tent = 18 tables (150-180 guests)	
40' x 60' tent = 24 tables (200-240 guests)	
<b>Dance Floor</b> (Formula: One 3' x 3' section per 4 people. ie: 100 people = 15' x 15' area)	
Dinner or Dance .....	4 sq.ft. per person
Wedding .....	2-3 sq.ft. per person
<b>Speakers Platform</b> .....	10 sq.ft.
<b>Bandstand</b> .....	20-30 sq.ft.
Piano, Spinnet .....	30 sq.ft.
Piano, Grand .....	100 sq.ft.
<b>Bar</b> .....	30 sq.ft.
<b>Caterer Tent</b> .....	10' x 10' (100 sq.ft.)

Tent Size	Total Sq. Ft.	Stand-up Cocktail*	Buffet Dinner*	Sit Down Dinner*	Cathedral Seating*

\*Seating capacity does not allow for aisles, dance floors, service area, etc.

# SAFETY GUIDELINES

Economy Tent International products are of superior design and function best in the parameters of these instructions. It is **IMPERATIVE** that the instructions are carefully read and **COMPLETELY FOLLOWED**.

*Please read these instructions before the installation or removal of the product.*

## CAUTION:

- The installer is solely responsible for the evaluation of the site and determining the proper securing method. Some soils require different staking or securing other than what is provided with the tent or purchased by the customer. Our responsibility is limited to the construction of the tent and not damage due to installation. Damaged frame parts or fittings are usually caused by improper lifting of the frame and are not covered under the terms of the warranty.
- Installation during threatening weather conditions is not advised under any circumstances. It is the responsibility of the tent installer/maintainer to determine the severity of the weather and utmost care must be used. This product is to be used as a temporary structure. In any questionable weather conditions, evacuation is recommended and all valuable merchandise should be removed immediately. Use good judgment, common sense and safety during take-down of the tent.
- Due to shifting of the tent frame, loosening of the stakes or loosening buckles, it is possible for the cover to "pocket" water in rain conditions. It is imperative to continually inspect the frame and cover for proper fit and alignment and adjust as required.
- Proper safety equipment should be used at all times to insure a safe installation and take down. Careful evaluation should be made to determine if hard hats, steel toe shoes, safety glasses and any other equipment should be used for the safe and proper installation. Tent lifts or other equipment might be considered for lifting or take down.
- Economy Tent stands behind its products in accordance of the Terms and Conditions of Sale (see the most updated version at [economytent.com](http://economytent.com)). For further questions or inquiries, please call toll free at 800-438-3226 or email us at [sales@economytent.com](mailto:sales@economytent.com).

For additional reference consult "The IFAI Procedural Handbook for the Safe Installation and Maintenance of Tentage" and the IFAI "Ballasting Study". Both of these resources are available from the IFAI Tent Rental Division at [www.tentexperts.org](http://www.tentexperts.org) under the "Safety" menu.

## INDUSTRY AFFILIATIONS

ETI is proud to be a member of these prominent industry associations:

# TERMS & CONDITIONS OF SALE

**AE Tent LLC, DBA Economy Tent International (abbreviated) "ETI"**  
**Acceptance of any products listed on this document, the Buyer agrees to the following:**

**TERMS:** Unless otherwise agreed to by ETI in writing, all orders must be paid in full before shipping. All business checks and/or personal checks require a minimum of 5 business days for clearance before orders will ship. Accounts that are past terms are subject to an interest charge of 1.5% per month. As a result of nonpayment or partial payment of invoice, including but not limited to attorney's fees, collection fees, any court costs will be paid by the BUYER. All NSF checks returned will be charged a minimum service fee of \$30.00 and all other remedies allowed by Florida law. The jurisdictions of any and all legal proceedings are in Dade County, Florida. Florida law governs the interpretation and enforcement of this contract.

**CUSTOM ORDER POLICY:** A custom order is defined as; any product manufactured specifically for the customer and not in stock. Terms for custom orders require a deposit of 50% with the balance paid before product is shipped or picked up. Cancellation of custom goods will result in loss of deposit.

**LIMITED WARRANTY:** ETI warrants to the original owner that our products are free of defects in material and workmanship for a period of one year from the date of purchase. Defects are limited to a result of the manufacturing process. This warranty does not imply, or express coverage from any damage to tents as a result of wear and tear or acts of nature. Excluded as well are **pin holes, punctures or abrasions** which can occur during shipping, storage and handling. This warranty is valid to the original purchaser only and is not transferable. Items found to have a manufacturing type defect will be replaced or repaired at ETI's discretion at no cost to the customer. The customer is responsible for shipping charges, duties, fees of any kind, if applicable.

**REQUIRED PERMITS:** ETI has no knowledge of applicable building or tent permitting in your area. It is the responsibility of the BUYER to check with the appropriate authorities to obtain proper approvals, permits, etc. prior to installation.

**LIMITS OF LIABILITY:** ETI has no control over the ultimate use or methods of installation of our products. ETI assumes no liability for any financial loss, damage, injuries or loss of life. ETI will not be responsible for expenses or loss of income of any kind, arising out of the use of our products. ETI makes no claims, expressed or implied, concerning use of all ETI's products. ETI shall not be responsible for any incidental damages, exemplary damages or special damages.

**RETURNS:** When requesting permission to return an order, Buyer will provide ETI with the invoice number and reason for return. If the return is agreed to, ETI will issue a Return Goods Authorization. Return authorizations do not imply automatic credit. **A 30% restocking fee will be applicable for all approved returns.** Returns should be carefully packaged and shipped prepaid, with the Return Authorizations number displayed on the shipping label. ETI reserves the right to refuse returned items that are soiled, wet, abused, or damaged in shipping. **Merchandise must be returned new, unused condition.**

**CANCELLATION, CHANGES & PERMISSIONS:** Orders may not be cancelled or changed without receipt of a written cancellation or change request. Once in production, cancellation of custom products will result in loss of deposit. The customer authorizes ETI to publish custom printed cover reproductions for advertisement purposes.

**SAFETY:** It is the responsibility of the BUYER to employ safe methods of installation. Installers must take into account; anchoring method, surface grade, composite of surface and must be aware of both overhead and underground obstruction. Good judgment with regard to wind and weather conditions should be used to determine time of installation and take down. If weather or any other external factors become threatening, a total removal of the product is recommended and at minimum a complete evacuation.

Anchoring a tent properly requires specific site analysis which should be performed by a licensed professional engineer. Factors which take into account wind uplift calculations, stake withdrawal capacity, size, placement and the number of stakes required are necessary at a minimum. ETI has no knowledge of specific anchoring requirements for your installations and will not be responsible for any aspect of anchoring failure whether or not the anchoring system was purchased or supplied by ETI. The purchaser/installer is responsible for all aspects of assembling and properly anchoring ETI products.

**SALES TAX:** Sales tax will be charged to customer pickups and shipments within Florida unless a current Florida Resale Tax Exemption certificate is provided.

**SHIPPING:** ETI cannot guarantee a particular date for shipment or delivery of merchandise. Estimates of delivery dates are those projected by the freight or package carriers and are not guaranteed. ETI shall not be responsible for delays in deliveries due to any contingencies beyond ETI's control. Delivery means F.O.B. ETI's facility, Miami, Florida. Risk of loss of damage to and title to goods and products shall pass upon delivery to the transportation company. Upon receipt of shipment, it shall be the responsibility of Buyer to check materials and secure written acknowledgment from delivering carrier for any shortages, loss or damage. **For your protection, materials must be checked before you sign for the shipment. If there is any shortage or damages, you must require the driver to make a notation on your receipt, and then make a claim with the carrier** for the amount of the loss or damage. Should damage not be discovered until goods are unpacked, immediately report it to the carrier so that such shortage or damage can be inspected promptly, and then file a claim with the carrier along with the inspection report.

**ALL CLAIMS MUST BE FILED WITH THE CARRIER, AND NOT ETI.** If the Buyer does not specify a method of shipment or carrier, or if the method is not practical in the sole discretion of ETI, the company shall determine the method of shipping and carrier without liability for differences in time and/or expense.

**RIGHTS TO ENGINEERING:** ETI reserves the right to withhold all engineering support and data in cases where the purchaser has not kept their account current within the pre-set terms established between ETI and purchaser.
